Fruits and Vegetables

Reference Section

Contents

[How to Use This Reference](#) [page 2-37](#)
[Geographical Abbreviations](#) [page 2-39](#)
[List of Approved Fruits and Vegetables](#) [page 2-40](#)

How to Use This Reference

This reference is a listing of fruits and vegetables that have been approved for entry into the United States from foreign countries and Palau, the Commonwealth of the Northern Mariana Islands, Federated States of Micronesia, and Guam. To use this reference, you need the information that follows:

- ◆ Before referring to a specific country, you must refer to “ALL COUNTRIES” which lists commodities that are approved from all countries.
- ◆ All countries of the world are listed in accordance with the guidelines set by the International Organization for Standardization (ISO 3166) for short names.
- ◆ The entry for some countries will appear as follows:

FAROE ISLANDS

Only fruits and vegetables listed under “ALL COUNTRIES” are admissible, subject to inspection. If **not** admissible from “ALL COUNTRIES,” then REFUSE ENTRY.

For such entries, either no one has ever applied for a permit to bring in other kinds of produce; or if a permit was applied for, permission was denied because of unacceptable risk. If a commercial import, you might want to tell the importer how to apply for a permit or give directions for contacting the Permit Unit in Riverdale.

- ◆ The West Indies are also listed in a separate section to accommodate the ports that have asked for a separate listing for this geographical area. In the printed manual this section is printed on green paper. The section is organized as follows:
 - ❖ List of commodities approved from all countries in the West Indies into ALL, PR, and VI.
 - ❖ An alphabetical listing of countries in the West Indies.

- ◆ Approved commodities are listed in this Reference section alphabetically under the ports that they are allowed to enter.
- ◆ If you can't find a fruit or vegetable listed by the name it's being imported under, then go to the Glossary and look up the name to see if there are any alternative names the commodity might be listed under.
- ◆ If you don't find a country listed, then check the Geographic Guide (Appendix 3) to see if there has been a name change. If, after using the Geographic Guide, you don't find the country entered, then you have an invalid name or a region of a country.
- ◆ Treatments, when required as a condition of entry, and approved plant parts are listed after each commodity.
- ◆ If a commodity requires a treatment and has been cold treated in transit or treated in a foreign country under the supervision of a PPQ officer, the treated commodity may enter any port of entry in the United States staffed by PPQ.
- ◆ If a commodity requires a phytosanitary certificate, REQUIRE THAT THE CERTIFICATE BE PRESENT before releasing the shipment.
- ◆ If a commodity requires a special procedure for sampling and inspection or has detailed regulatory information, you will be referred to the page which contains the detailed information. These entries will be listed with “p. __” after the approved commodity.
- ◆ Palau, Federated States of Micronesia, the Commonwealth of the Northern Mariana Islands, and Guam are listed like a country in this Reference Section. Refer to this list when clearing commercial and noncommercial shipments from these islands.

Geographical Abbreviations

Terms that describe portions of the United States and its territories where fruits and vegetables are admissible (see the rearmost section of the Geographic Guide for a list of ports with their geographic designations):

ALL	All ports of entry where PPQ officers are stationed and their area of coverage. (The definition includes Guam, the Commonwealth of the Northern Mariana Islands, Puerto Rico, and the U.S. Virgin Islands.)
ALASKA	The entire State of Alaska.
NA	NA (North Atlantic) Atlantic ports north of and including Baltimore, MD; ports on the Great Lakes and St. Lawrence Seaway; Canadian border ports east of and including North Dakota; Washington, DC (including Dulles for air shipments). [All the area north of 39° and east of 104°]
NP	NP (Northern Pacific) Pacific ports north of California, including Alaska, Canadian border ports west of and including Montana, excluding Hawaii. [All the area north of 42° and west of 104°]
SAG	SAG (South Atlantic and Gulf) Atlantic ports south of Baltimore, MD (excluding Washington, DC area), U.S. Gulf of ports, Puerto Rico, and the U.S. Virgin Islands [All the area north of 39° and east of 104°]
PR	Puerto Rico (also included under SAG).
VI	U.S. Virgin Islands—St. Croix, St. Thomas, and St. John (also included under SAG).
MB	U.S. land border ports on the Mexican border.
HAWAII	The entire State of Hawaii.
GUAM ¹	The U.S. territory of Guam.
CNMI*	The Commonwealth of the Northern Mariana Islands.
SoP	Ports as specified on the permit.
LTD	(Limited) Limited ports will be listed in a footnote.

- 1 If a fruit or vegetable requires treatment as a condition of entry, then REFUSE ENTRY into Guam or the Commonwealth of the Northern Mariana Islands because they have no treatment facilities.

When an entry is followed by a plant part(s) in parentheses, only the plant part(s) identified in parentheses is approved for entry. For example, the entry that appears as "*Allium* spp. (bulb)"—then only the bulb is admissible; *Allium* with tops would be prohibited! On the other hand, the entry that appears as "Radish" would allow radish with tops.

List of Approved Fruits and Vegetables

ALL COUNTRIES

No Permit Required			
ALL ¹	Aloe vera (above ground parts) Bat nut or devil pod (<i>Trapa bicornis</i>) Cannonball fruit Chinese water chestnut Coconut, page 4-19 Corn smut galls ² Cyperus corm Garlic cloves, peeled Lily bulb (<i>Lilium</i> spp.) Maguey leaf	Matsutake Mushroom Palm hearts, peeled ³ Peanut (except prohibited from Burkina Faso, China (People's Republic of), Côte d'Ivoire, India, Indonesia, Japan, Philippines, Senegal, and Thailand, on page 4-30) St. John's Bread Singhara nut (<i>Trapa bispinosa</i>)	Tamarind bean pod Truffle Water-chestnut (<i>Trapa natans</i>)
GUAM & CNMI	<p>Corn, green—except from the following countries: Africa (all countries), Armenia, Australia, Azerbaijan, Bangladesh, Belarus, Bhutan, Brunei, Bulgaria, Cambodia, China (People's Republic of), Estonia, Georgia, Hong Kong, India, Indonesia, Japan and adjacent islands, Kazakhstan, Kyrgyzstan, Laos, Latvia, Lithuania, Malaysia, Moldova, Myanmar, Nepal, New Zealand, North Korea, Oceania, Pakistan, Papua New Guinea, Philippines, Russia, Singapore, South Korea, Sri Lanka, Tajikistan, Taiwan, Thailand, Turkmenistan, Ukraine, Uzbekistan, and Vietnam.</p> <p>Also, all other fruits and vegetables listed in this Reference Section as approved for entry into any other part or port of the United States may be imported into Guam and The Commonwealth of the Northern Mariana Islands with the exception of those fruits and vegetables which require a treatment as a condition of entry.</p>		

- 1 The United States maintains trade sanctions or embargoes against the following countries: Cuba, Iran, Iraq, Libya, Democratic People's Republic of Korea (North Korea), Sudan, and Yugoslavia (Serbia, Montenegro, and Bosnia Serb-controlled Areas of Bosnia-Herzegovina). If an item listed here is from one of these countries and that item is free from pests, refer it to Customs for disposition. Customs and not us enforces embargoes and trade sanctions.
- 2 For corn smut galls, see Special Procedures—Regulatory Action to Take on Fresh or Frozen Corn Smut Galls Imported for Consumption, [page 2-27](#).
- 3 All outer green tissue must be removed, leaving a white to off-white piece of the stem.

ALL COUNTRIES OF THE WEST INDIES

¹ Shipments of apples and pears must be precleared and accompanied by an original PPO Form 203 completed and signed by the APHIS officer in Australia. Currently, only apples and pears from the Goulburn Valley are authorized for preclearance. For precleared apples, do not apply [page 2-18](#).

² Fruits receiving cold treatment may enter at these additional ports: Corpus Christi, TX; Gulfport, MS; Seattle, WA; and Wilmington, NC.

- 3 If the prescribed refrigeration period is met upon arrival, the treated commodity may enter any port of entry in the U.S. staffed by PPQ. However, if the prescribed refrigeration period is **unmet** upon arrival, then the commodity may enter only at a North Atlantic Port, Corpus Christi, TX; Gulfport, MS; Seattle, WA; or Wilmington, NC.
- 4 Require treatment as a condition of entry if not certified as described in footnote 6.
- 5 Limited to oranges (*Citrus sinensis*); lemons (*C. limonia* and *meyerl*); limes (*C. aurantifolia* and *latifolia*); mandarins, including satsumas, tangerines, tangors, and other fruits grown from this species or its hybrids (*C. reticulata*); and grapefruit (*C. paradis*). Fruit must be from one of the following three horticultural districts:

Riverina
Riverland
Sunraysia

Shipment must be accompanied by a phytosanitary certificate issued by the Australian Quarantine Inspection Service. Certificate must contain **two** additional declarations (1) "Citrus fruit produced in (must be one of the three districts bulleted above) in accordance with the conditions governing the entry of citrus from Australia." If from Sunraysia, a second AD is necessary: either, "The fruit in this shipment was grown and packed in an area free of economically important fruit flies," or "The fruit in this shipment is subject to in-transit cold treatment." If the latter AD appears, require T107(d). (2) Naval oranges **only** must have the additional declaration, "The fruit in this shipment was subject to the appropriate phytosanitary measures to ensure the shipment is free of the light-brown apple moth."
- 6 Require a phytosanitary certificate issued by the Australian State Department of Agriculture (or Queensland Department of Primary Industries) affirming the commodity was produced in an area free from the red-legged earth mite, *Halotydeus destructor* (Tucker).
- 7 Ivy gourd (*Coccinia grandis*) is prohibited into Hawaii.
- 8 If the light-brown apple moth is intercepted, require T101-a-1.

AUSTRIA, Republic of

ALL	NA

CANADA¹

If the fruit or vegetable is:	And harvested in:	And moving to:	Then:
Blueberry or huckleberry	British Columbia	→	RELEASE
	A province other than British Columbia	California	USE Table 3
		Other than California	RELEASE
Cherry	→	California	USE Table 4
		Other than California	RELEASE
Corn, green			USE Table 2
Pome or stone fruit (almond, apple, apricot, haw, medlar, nectarine, peach, pear, plum, prune, quince, or thornapple, for example)	British Columbia	→	RELEASE
	A province other than British Columbia	California	USE Table 4
		Other than California	RELEASE
Potato	→	→	USE Table 1
Other than one listed in the six cells above	→	→	RELEASE

¹ Fruits and vegetables that were grown and harvested in other countries can enter Canadian commerce and be identified to you as Canadian in origin. Obviously, tropical fruits and vegetables like citrus, mangoes, and avocados, cannot have a Canadian origin. Likewise, if fruits like apples, grapes, nectarines, peaches, pears, plums, and sand pears are presented for entry in the dead of winter—their origin is probably somewhere like Chile, not Canada.

Table 1 (Canada)—Potatoes:

If from:	And:	Then:	Authority:
Newfoundland or that portion of the municipality of central Saanich on Vancouver Island in the province of British Columbia east of the West Saanich Road		REFUSE ENTRY	7CFR 330.105
Other than a part of Canada described in the cell above	Are accompanied by one of the following documents issued by the Canadian Food Inspection Agency (CFIA) <ul style="list-style-type: none"> ◆ A Canadian Phytosanitary Certificate, or ◆ An E2-Certificate of Inspection for Fresh Fruit and Vegetables (CFIA/ACIA Form 2401) or an equivalent quality certificate, or ◆ A Certificate of Origin¹ 	RELEASE ²	7CFR 319.56
	Lack one of the above documents	PROHIBIT ENTRY	

1 The Certificate of Origin must be signed by a CFIA inspector.

2 Potato importations exceeding 500 pounds are subject to Agricultural Marketing Service requirements.

Table 2 (Canada)—Corn, green:

If the corn is going to:	From the Province of:	And:	Then:	Authority:
Arizona, California, Hawaii, Idaho, Nevada, New Mexico, Oregon, Utah, or Washington	Alberta, Manitoba, New Brunswick, Newfoundland, Nova Scotia, Ontario, Prince Edward Island, Quebec, or Saskatchewan	Accompanied by a phytosanitary certificate stating that the corn has been treated to eliminate the European corn borer	RELEASE	7CFR 319.41
		Without such certification	REFUSE ENTRY	
	British Columbia		RELEASE	
Other than a State listed in the cell above				

Table 3 (Canada)—Blueberries or huckleberries destined to California from provinces other than British Columbia:

If the berries are:	Then:	Authority:
Accompanied by a Canadian phytosanitary certificate declaring that the berries were treated with mouthy bromide—showing an appropriate schedule ¹ in the treatment section of the phytosanitary certificate	RELEASE	Enforcing State Regulations
Not accompanied by the certificate; or if the certificate is present, the required schedule ¹ is absent	REFUSE ENTRY	

1 2 lbs/1,000 ft³ for 2 hours at 82°F or above; or 2 lbs/1,000 ft³ for 2.5 hours at 72-81°F or above; or 2 lbs/1,000 ft³ for 3 hours at 62-71°F or above; or 2 lbs/1,000 ft³ for 3.5 hours at 50-61°F or above.

Table 4 (Canada)—Cherries from all provinces of Canada, pomes (apple haw, medlar, pear, quince, or thornapple) and stonefruit (almond, apricot, nectarine, peach, plum, or prune) destined to California from provinces other than British Columbia:

If the fruit is:	And the shipment is:	Then:	Authority:
Any kind of cherry	Accompanied by a Canadian phytosanitary certificate declaring that, "The fruit was fumigated in an approved manner for cherry fruit fly larvae"	RELEASE	Enforcing State Regulations
	Not accompanied by a certificate; or if the certificate is present, it lacks the additional declaration	REFUSE ENTRY	
A pome or any kind of stone fruit except for cherry	Accompanied by a Canadian phytosanitary certificate bearing the fruit's origin and declaring that, "The fruit was exposed to controlled atmospheric storage for a continuous period of 90 days at 38°F or less"	RELEASE	
	Not accompanied by a certificate; or if the certificate is present, it lacks origin or the declaration	REFUSE ENTRY

- 1 All fruits and vegetables approved for entry under 7CFR 319.56 into the United States from Chile may or may **not** be precleared. If they are precleared, the shipment must be accompanied by either a PPQ Form 203 or a facsimile signed by the APHIS inspector on site in Chile to validate foreign site preclearance. **All** maritime shipments will have a vessel report, in lieu of a PPQ 203, which will be faxed directly to the receiving port. If the shipment was **not** precleared, then INSPECT AND RELEASE or REQUIRE TREATMENT as appropriate.

All fruit fly hosts must be accompanied by a Chilean Phytosanitary Certificate or a facsimile from APHIS Chile, Stan Cornelius (International Services), or FAS with the information regarding the clearance status of the shipment. The Chilean Phytosanitary Certificate or faxed message must state from which region the fruit originated. Each box must be labeled with the province of origin.

- 2 Shipments may or may **not** be precleared. If they are precleared, the shipment must be accompanied by a PPQ Form 203 signed by the APHIS inspector on site in Chile to validate foreign site preclearance. If the shipment was **not** precleared, REQUIRE T101-a-3.
- 3 If the prescribed refrigeration period is met upon arrival, the treated commodity may enter at any port of entry in the U.S. staffed by PPQ. However, if the prescribed refrigeration period is **unmet** upon arrival, then the commodity may enter only at a North Atlantic Port: Corpus Christi, TX; Gulfport, MS; Seattle, WA; or Wilmington, NC.

Shipments of host material which require cold treatment must be accompanied by a PPQ 203 indicating that the cold treatment was initiated in Chile.

If host material received T107 and is pre-inspected, then T101-a-3 or equivalent treatment is not required. If a shipment is **not** pre-inspected, REQUIRE T107 and T101-a-3 or equivalent treatment as stated in the PPQ Treatment Manual.

- 4 Shipments may or may not be precleared. If they are precleared, the shipment must be accompanied by a PPQ Form 203 signed by the APHIS inspector on site in Chile to validate foreign site preclearance. If the shipment was **not** precleared, REQUIRE T101-c-3-1.
- 5 If the tomatoes transit fruit fly supporting areas of Europe and South America, they must be sealed by the Ministry of Agriculture of Chile and the official seal number must appear on the phytosanitary certificate.

- 1 Noncommercial lots of produce encountered at the Mexican border for local consumption—see page 2.19.
- 2 Shipments must be accompanied by either a PPQ Form 203 or a mexican Phytosanitary Certificate with the additional declaration: "These regulated articles originated from an area free from pests as designated in 7CFR 319.56-2(h)."
- 3 If *Sagittaria sagittifolia*, refuse entry unless the importer has a valid PPQ Form 526 Permit. This noxious weed is prohibited by 7CFR 360–Noxious Weed Regulations.
- 4 Allow entry to noncommercial lots with seeds removed into ALL ports except those in California, Commonwealth of the Northern Mariana Islands, Florida, Guam, Hawaii, Puerto Rico, and U.S.Virgin Islands.
- 5 If *Cydia fabivora*, *Epinotia aporema*, or *Maruca testulalis* is found, go to [page 2-24](#) for the correct regulatory action to take.
- 6 Garden beans (*Phaseolus vulgaris*) are **not** eligible for the BCR.
- 7 Commercial shipments must be accompanied by a phytosanitary certificate declaring the shipment has been inspected and found to be free of *Copitarsia* larvae and adults. Inspect the shipment for pests. If a phytosanitary certificate is absent require T101-b-1. For shipment in passenger baggage, do not refuse entry for lack of a phytosanitary certificate. However, thoroughly inspect the vegetables for pests.
- 8 Includes potherbs such as lambsquarter, epazote, quinoa, ambrosia mexicana, wild spinach, and strawberry blite.

- 9 If *Diatraea lineolata* is intercepted, take appropriate action.
- 10 Ivy gourd (*Coccinia grandis*) is prohibited into Hawaii.
- 11 Fruits receiving cold treatment may enter at these additional ports: Corpus Christi, TX; Gulfport, MS; Seattle, WA; Wilmington, NC.
- 12 Papayas must be from one of the following 12 orchards:
 - Agroforte, S.A. de C.V. in the municipality of Mazatan, Chiapas
 - Amelia-Modulo Acapetahua in the municipality of Acapetahua
 - Aguiles Serdan, Agroforte, S.A. de C.V. in the municipality of Mazatan
 - Belen in the municipality of Villa Corso
 - El Potreron in the municipality of Villa Corso
 - Finca las Lomas (Finca Lomas del Soconusco) in the municipality of Acapetahua
 - Las Vegas in the municipality of Acala, Chiapas
 - Mayela in the municipality of Mazatan
 - Ojo de Agua, Tropiregio S.A. de C.V. in the municipality of Mazatan
 - Rancho San Francisco, Tecnocrop, S.A. de C.V. in the municipality of Chiapa de Corzo
 - Rancho el Trapiche S.A. de C.V. in the municipality of Chiapa de Corzo
 - Rancho Veracruz in the municipality of Chiapa de Corzo

Papayas must be accompanied by a Phytosanitary Certificate issued by Sanidad Vegetal specifying one of the 11 orchards and its municipality listed above. Refuse entry to commercial shipments of papayas if not certified as required.
- 13 Commercial lots only; must be “Hass” cultivar. Must be accompanied by a document issued by Sanidad Vegetal certifying the following conditions: (1) The avocados were inspected during growing, harvesting, and packing and were found free from seed weevils and other pests; (2) The avocados were sealed in boxes after inspection at the packing house with a seal that would be broken when the box was opened; and (3) The avocados were packed in an enclosed container or vehicle or under a tarpaulin cover while in transit through Mexico to prevent exposure of the fruit to fruit flies.
- 14 Avocados may be shipped only from October 15 through April 15 of the following year. Require phytosanitary certification from Sanidad Vegetal certifying that the conditions of 7CFR 319.56-2ff have been met. The avocados must be packed in clean, new boxes, or clean plastic reusable crates. The boxes or crates must be clearly marked with the identity of the grower, packing house, and exporter, and the statement “Not for distribution in AL, AK, AZ, AR, CA, FL, GA, HI, LA, MS, NV, NM, NC, OK, OR, SC, TN, TX, WA, Puerto Rico, and all other U.S. Territories.” The approved port of entry will be identified on the permit (the ports of Brownsville, TX; Eagle Pass, TX; El Paso, TX; Galveston, TX; Houston, TX; Laredo, TX; Pharr, TX; and Nogales, AZ).
- 15 Must be accompanied by a PPQ Form 203 to verify that the fruit was treated in Mexico. Also, each shipment must be tarped with a suitable cover to prevent reinfestation during movement from packing facilities to the border.
- 16 Mangoes must be treated with a hot water dip at an APHIS approved facility in Mexico. Each box must be marked with the statement, “APHIS-USDA TREATED WITH HOT WATER.” The shipment must be accompanied by the original copy of the PPQ Form 203 completed and signed by the APHIS officer on site in Mexico. Mango is **not** a BCR commodity into Nogales, AZ.
- 17 For commercial shipments only, require a phytosanitary certificate that shows the Mexican state of origin of the fruit in order to confirm that the papayas did **not** originate in the state of Chiapas. See also the papaya entry under the state of Chiapas.
- 18 Snow peas (*Pisum sativum* var. *sativum*) are **not** eligible for the BCR.
